Join leaders and experts as we delve into the future of banking and finance, exploring how institutions can maintain equilibrium amidst rapid technological advancements and changing client expectations.

- **Global Expertise in Local Market:** Discover how foreign banks operating in Switzerland leverage their global expertise to thrive by focusing on efficiency, client-centric strategies, and advanced automation.
- **The AI Journey in Swiss Banking:** Automation is vital for Swiss banks to maintain their global competitiveness. Explore real-world AI use cases – those driving success, those abandoned, and those with untapped potential for implementation.
- **Quantum Computing in Finance: Opportunities and Challenges:** Quantum computing promises to revolutionize the financial industry. Hear from an expert about its potential impact on Swiss banking and how institutions can prepare for this transformative technology.

BankersCom is an exclusive conference for personally invited senior banking executives. The conference will explore the evolving landscape of Swiss banking, focusing on the industry's key challenges and opportunities. The conference will be bilingual English German (with simultaneous translation).

BankersCom – the platform where senior decision makers of the Swiss banking industry meet and exchange their experiences.
